PROFESSIONAL EXPERIENCE

Software Developer, Actify (Thane)

May 2024 – Present
Thane, India

- Planned and structured new projects, providing system architecture and design insights.
- Optimized the HR portal, improving workflows, performance, and user experience.
- Redesigned UI components for responsive design, accessibility, and usability for various portals and websites.
- Also worked on prebuild WIX websites for redesigning and improving the UI, enhancing the overall user experience.
- Developed scalable front-end solutions for HR, LMS, Jobs portals, and e-commerce using React.js, TypeScript, and Tailwind CSS.
- Integrated REST APIs and Java-based Apis ensure seamless data flow and functionality.
- I worked with modern technologies like React-Hook Form, Shadcn, React-Table, Redux, and Github.
- Led e-commerce development, managing team coordination, Agile methodologies, and project leadership.

ACHIEVEMENT

HACKATHON

SPRK Technologies Coding Hackathon - 2023

- Contributed significantly to the development of an "Online Exam Conducting Application".
- Achieved **second place** in the SPRK Technologies Coding Hackathon 2023.
- My major was to **develop frontend** for which we used React.js.
- The backend was made with Java.
- Emphasized teamwork in creating an effective and user-friendly solution.

EDUCATION

B.Sc. Computer Science,

Changu Kana Thakur College (Mumbai University)

9.58 cgpa

2020 – 2024

PROJECTS

Musico - Royalty-Free Sounds Platform

- Developed a music platform utilizing the **MERN stack**, offering music developers a repository of royalty-free sounds and beats.
- Integrated **nodemailer** for email services within the platform, facilitating seamless communication and notifications.

Formjam - Online Examination Portal

- Implemented a unique feature allowing teachers to create exam forms by either manually inputting questions or importing questions from an Excel file, utilizing the **csvtojson npm module** for seamless integration and data conversion.
